Chapter 2. Resources

2.1. 算服

的 算服 ，提供加 乘除 算API

2.1.1. 加法 算

```
POST /compute/add
```

Parameters

Type	Name	Description	Schema
Query	**a** *required*	加数	number (double)
Query	**b** *required*	加数	number (double)

Responses

HTTP Code	Description	Schema
200	successful operation	number (double)

2.1.2. 除法 算

```
POST /compute/div
```

Parameters

Type	Name	Description	Schema
Query	**a** *required*	被除数	number (double)
Query	**b** *required*	除数	number (double)

Responses

HTTP Code	Description	Schema
200	successful operation	number (double)

2.1.3. 乗法　算

```
POST /compute/mul
```

Parameters

Type	Name	Description	Schema
Query	**a** *required*	被乗数	number (double)
Query	**b** *required*	乗数	number (double)

Responses

HTTP Code	Description	Schema
200	successful operation	number (double)

2.1.4. 　法　算

```
POST /compute/sub
```

Parameters

Type	Name	Description	Schema
Query	**a** *required*	被　数	number (double)
Query	**b** *required*	数	number (double)

Responses

HTTP Code	Description	Schema
200	successful operation	number (double)
